

Performance Graph 90:1 Power Drive

719627 12V ("62") & 719637 24V ("63")

CAUTION:

High current draw can result in exceeding maximum gearbox torque capacities.

Refer owner's manual for suitable torque specifications for your power drive model.

Note:

Longer Power cables at lower guage power cables can result in voltage drop & increased current. This will effect performance outcome.
